Uriel O'Brien, Raymond, was in town today on business in connection with the establishing of the Conservatory of Music. The proposed institution will probably be running abut November 1st.—Cardston Globe.

We do not claim to have the only line of Trunks, Trunks, and Suit Cases, but a good selection that we can give you at the very lowest prices. The place is at the Merc.

All the places of business were closed on Monday, and all of the townspeople were celebrating "Thanksgiving." Some were hunting, others were working and still others were feasting at the banquet at the Opera House, at which meals were served to the public for the small amount of 25 cents, ending in the evening with a dancing which was attended by a large crowd of merry-makers.

I have purchased the Lumber, formerly owned and run by Long Sing. We guarantee first class work.

Some years ago in Indiana one of the questions in an examination was, "What is nicotine?" The answer given was "Nicotine is so deadly a poison that a drop on the end of a dog's tail will kill a man."

A Lady Quartette is always a source of delight to lovers of beautiful music, and the Schubert Lady Quartette is one of the best.

Hear them at the Raymond Opera House Nov. 17th.

THE BOSTONIANS.

A large and appreciative audience greeted the Juvenile Bostonians at the Opera House on Thursday evening last in the Opera, "The Ransom," and although the Opera House was very poorly heated, all present enjoyed the performance very much. The performers were most all with the Company last year in their play here, but have much improved in their acting and singing. Miss Patsy Henry in her role of the Cow Boy from Wyoming, and Miss Ethel Shaw in the role of the "hit" of the evening.

"45 MINUTES FROM BROADWAY."

Noted singing star, who was a featured artist in the Knight Academy, is now in town. He is a very fine singer and will give a number of songs over the Opera, 45 Minutes from Broadway. The acting and the many song hits in this Opera left quite an impression on the theatre-goers of Raymond and all were free with their praises for this company and their catchy songs, strains of which are to be heard on every side even now.

Mr. Harold Nelson was stage manager for the company and his presence did much towards their having such a large house.

THE VALUE OF SMALL SAVINGS.

If a young man 15 years of age were determined to save three carfare a week, and to pay the 15 cents this saved every week until he was 60 to the Canadian Government for the purchase of an Annuity, the result of his thrift would be that from and after 60 he would receive \$25.18 every three months so long as he lived. If he died before he was 60, all that he had paid in with three per cent compound interest would be refunded to his heirs, and if he died just before his first instalment of Annuity fell due his heirs would inherit \$771.70. A post card sent to the Superintendent of Canadian Government Annuities, Ottawa, giving your age last birthday, will secure you information as to what an Annuity will cost.

LUMBER CUT IN B. C. — 1910.

The rapid exploitation of lumber in British Columbia is increasing yearly and almost made this province the equal of Ontario in point of lumber production during 1910. Statistics of the Dominion Lumber cut for 1910, collected by the Forestry Branch of the Department of the Interior, state that one billion, six hundred and twenty million feet of lumber worth nearly twenty-five million dollars was cut in British Columbia in 1910. As a result of greatly increased cutting in the fir and cedar forests, the total amount cut was more than doubled in one year. In 1909 the British Columbia cut constituted one-fifth of the total; in 1910 the proportion formed by the western province was one third, and it lacked only forty-five million feet of surpassing the cut in Ontario. Seven important softwoods make up over 99 per cent of the cut in British Columbia—Douglas fir, cedar, western yellow pine, tamarack, spruce, hemlock and jack-pine. Nearly forty-five per cent of the total was made up by Douglas fir. This species was cut in 1910 to the extent of nearly seven hundred and twenty million feet and had the largest actual increase shown by any species—an increase of nearly two hundred and fifty million feet. Cedar composed one-fifth of the total and was the second wood in magnitude of cut. The three hundred and fifteen million feet of this species cut was an increase of two hundred and seventeen million feet over the 1909 production. The cut of yellow pine, amounting to one hundred and eighty-three million feet, was nearly six times as much as the amount cut in 1909, and was sufficient to raise it from fourteenth to sixteenth place in importance among the lumber producing trees of Canada.

"BROOKS" COMET PLAINLY VISIBLE.

An interesting visitor from outer space known as "Brooks Comet" is now visible, and last night The Albertan telephone was rung up by several asking information. The comet apparently belongs to a tramp fraternity and will never be seen again.

It is not as brilliant now as it will be later in the month. The moon is too bright at present but will pass between the pole and the sun for a few days and will be visible in both evening and morning, low in the north west after dark, and low in the north east before dawn. The perihelion passage occurs near the end of the month at a distance of some 40 miles from the sun.

At the time of perihelion, it will be in Vigor, rising more than two hours before the sun, and should be fairly conspicuous after new moon when the morning skies are dark.

The comet was discovered a month ago and is called after the discoverer.—Albertan.

Knight Academy Notes.

A huge crowd attended the Halloween party given by the Academy last Friday night. Moreover, all report an exceptionally good time. Preparations were, in the main, creditable.

Monday was a holiday for the students of the Academy on Thanksgiving observance.

Frances Rasmussen, our elocutionist, gave a reading in New Stirling on Monday night, at the Presbyterian wild game supper.

Don Skouson, Asael Palmer, Leroy Anderson, and some others were seen in the hallways on Tuesday, all making preparations for entering the Academy. From now on, the increase in attendance will be marked.

A basketball league will be formed in Southern Alberta this fall, in which the Academy expects to play an important part. Already preliminary details are under way.

Missionary students will begin to come in this week. The Academy will be pleased to welcome the boys.

And now the Academy will push the opera at present under way. It will be presented early in December.

The Academy is in receipt of "Circular of Instructions of the Church Board of Education." From it we gather that the Board is drawing the line more and more to the standard of efficiency which the Church Schools must maintain. Good! We rejoice in the thought that the Latter-day Saint Schools will keep in the front ranks of educational work.

The schools now maintained by the Church is as follows: One Teachers' College, Two Normal Training Schools, Twenty-two Schools of Academic Grade, Nine Seminars, besides the system of Religion Classes, which make up an important part of our educational system. A great system to grow out of so humble a beginning!

Have Will Redd bring you a load of coal, \$6.25 per ton.

TO TACKLE BIG GAME.

J. F. Ellison, our local wrestler, is trying to make arrangements for a match with Frank Gotch, who comes to Lethbridge on Nov. 9th. It is understood that Gotch will put up a purse to any one of any account who will go on the mat and stay with him for a certain period, which is usually fifteen minutes. Ellison has expressed a willingness to go on, and no doubt something lively will result.—Cardston Globe.

The Schubert Mandolin and Guitar Club will render some very interesting selections at the Schubert's concert on Nov. 17th at the Raymond Opera House.

Plenty of good coal at Magrath Coal Mine. Buying orders of Will Redd saves waiting.

First of all, be sure to get "The Best Good Shoe." Secondly, give your shoes proper attention. They will stand wear out not neglect or abuse. Laxity in the care of footwear is a common fault.

Never dry shoes rapidly when wet. Don't put them where it is too hot,

or leave them to mildew where it is damp. Do not wear them continuously day after day. Two or more pairs worn alternately are better for the shoes and for the feet.

Try "INVICTUS" on these rules and we'll vouch for satisfaction.
